DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

2. The following changes to the drawings have been approved by the examiner and agreed upon by applicant:

In Fig. 6B, reference number "524" has been canceled; and
reference number "504" indicating nodes or balls has been replaced with --
506--. In order to avoid abandonment of the application, applicant must make these above
agreed upon drawing changes.

The changes have been made to correct minor informalities.

Allowable Subject Matter

3. Claims 1-22 are allowed.
4. The following is an examiner's statement of reasons for allowance: It is agreed that the prior art of record fail to teach or suggest, alone or in combination, the limitations: "sensing the receipt of the RF signal by the electronic circuit by sensing a power increase in the RF generator in the presence of the planar two arm spiral structure" as claimed in claims 1 and 12. It is for this reason in combination with all the other limitations in the independent claims 1 and 12, that claims 1-22 are allowable over the prior art of record.

Art Unit: 2821

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
